In tandem with the higher revenue, profit before taxation rose by RM1.877mil (20.95%), from RM8.960mil to RM10.837mil. The improvement in overall performance was mainly attributable to the Group's continuous cost control measures and better sales performance.

For the nine-month period ended 30 September 2025, the Group recorded revenue of RM143.143mil, representing a decrease of RM9.535mil (6.25%) compared to the same period last year. The lower performance was mainly attributable to reduced contributions across all divisions. Correspondingly, profit before taxation declined by RM8.438mil (21.83%) from RM38.649mil to RM30.211mil. The decrease in profitability was primarily due to slower demand, an unfavorable product mix, lower contributions from joint ventures and foreign currency translation losses. It is also noted that the stronger performance in the prior year was partly supported by a one-off bad debt recovery of RM0.700mil.

In line with the lower revenue, profit before taxation decreased by RM3.149mil (28.85%), from RM10.914mil to RM7.765mil. The decline in performance was mainly attributable to lower customer demand as well as higher operating and compliance costs. In addition, the strengthening of the USD also impacted the division's profitability.

Trading

The revenue for the current quarter decreased by RM2.003mil or 55.16% compared to corresponding period in the previous year. The decline in revenue was mainly attributable to lower customer demand.

Hotel

In tandem with the lower revenue, profit before taxation also decreased from RM2.608mil to RM2.062 this quarter. The drop in performance was mainly attributable to a reduction in domestic travellers to Penang.
